Copy of letter No.R.O.C.307/34, dated 7th August 1934, from the District Medical Officer, Coimbatore, to the Personal Assistant to the Surgeon-General with the Govt. of Madras.

Subject:- Buildings- Govt. Hospital, Kollegal - Construction of a maternity ward of 8 beds Officer of Rs.10,000 by M.R.Ry G.M.Madappa Avergal, Mudigundam, Kollegal - G.O.No.991 P.H., dated 29th April 1935 and your Ref.No.980-G1/34 dated 8th May 1935.

A/ B/ M.R.Ry G.M.Madappa Avergal agrees to the conditions laid down in the Government Order sanctioned above, but wishes to know before he remits the promised sum into the Treasury to the credit of Government, whether he would be permitted to draw the amount of Rs.10,000/- remitted into the treasury in instalments, when the work is in progress, up to the amount of work executed then and there and certified by the P.W.D. He desires that this concession should be given to him, as otherwise, if he were to wait for the repayment of the amount in a lump sum till the work is finally completed and the building handed over to Government, it would take a long time and he would be obliged to spend from his pocket another Rs.10,000 which would entail hardship in his case. With this apprehension in view, he requests sanction to pay him from the amount deposited by him, for the ~~current~~ work done at convenient stages, say Rs.1000/- or Rs.2000/- as the case may be, without making him wait till the building is completed. His request appears to me to be reasonable and I recommend it for favour of early sanction. On receipt of orders he promises to remit the sum of Rs.10,000/- into the Treasury.

2. As regards the cost of the maternity ward and theatre I think a ward of 8 beds with a labour and a sterilizing room attached will be sufficient for the place and the building can be constructed within the promised donation of Rs.10,000/- if the work, is assigned to the donor, who is willing to execute it accordingly to the specifications of the P.W.D. Even

if it costs a little more, the donor states that he is willing to bear the small extra cost. I recommend this as there will be no extra cost to Government in the construction.

3. A statement showing the recurring and non recurring liabilities that may be involved on Provincial Funds under staff, maintenance, Woman Sub Assistant Surgeon's quarters etc is enclosed as required in para 2 (b) of the Government Order.

Sir,

Reference:- Paragraph 3 of Government Memorandum No. 20400-1 D.2 P.H., dated 8th December 1936.

I have the honour to state that the minimum staff of nursing orderlies required even for a dispensary where there are no beds for in-patients is two, one male and one female. The scale of nursing orderlies to beds viz 1 : 8 does not include the nursing orderlies required to attend on out-patients. The daily average attendance of in and ~~out-patients~~ out-patients treated at the Government Hospital, Kollegal, for the last three years and also for the first 11 months in

1936

8/1
18/1

2.8

1936 was as follows:-

<u>Year.</u>	<u>Daily average attendance.</u>			
	In-patients		Out-patients.	
1933	...	8.5	...	171.19
1934	...	9.39	...	181.64
1935	...	9.17	...	182.91
1936 (11 months)		<u>12.5</u>	...	208.50

The Medical Officer states that the average for the last 6 months i.e since he took charge was 17.00 in and 225 out-patients. Though the average number of in-patients in 1933 was 8.5, it has since steadily increased and has now nearly doubled the figures of 1933. The nursing orderlies on the male side cannot be made to work in the female section for obvious reasons.

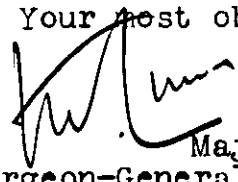

In view of the above facts, and the increase in attendance it will not be possible to carry on the work of the Hospital with one male nursing orderly.

The existing staff of two nursing orderlies one male and one female for the Govt. Hospital, Kollegal, is the irreducible minimum. The District Medical Officer, Coimbatore, recommends and I agree with him that the question of abolition of the post of one of the nursing orderlies of the Hospital may therefore be dropped.

I have the honour to be,

Sir,

Major-General, I.M.S.,

Hospital - Deposit of Rs. 10,000.

In my letter to District Medical Officer, Coimbatore, dated 24-1-37 I intimated the fact of having deposited Rs. 10,000 into the Sub Treasury at Kollegal and requested that the plans and estimates for the construction of the Maternity block might be sent to me within a fortnight or so as it was feared that the prices of materials might increase.

2. Though it is now more than two months, the plans and estimates have not been given to me. As already feared, the prices of iron materials have risen nearly 62½% now, and it is strongly rumoured that the prices may rise still further. As I would be put to great loss if the construction is not begun at once, I request that the plans and estimates may be ordered to be given to me at least within a month. If the plans and estimates are not given to me within one month, I submit I will be obliged to make my further representations in the matter that I will not be responsible for the loss if any.

This is submitted direct to avoid delay.

C.no. 8526 from the S.G. No. 1410.G. d/ 20-8-'36.

The proposal relates to the construction of a maternity ward of 10 beds with a theatre in the Govt. hospital at Kollegal. The cost of the building is estimated at Rs. 10,000/- and this entire amount is to be met by one Mr. G M. Madappa, the expenditure on account of maintenance &c being met by the Govt. The Govt. have accepted the donation subject to certain conditions. The donor has agreed to the conditions but requests that payment ^{in instalments} for the finished portion of the work may be made in instalments according to the recommendations of the P.W.D. authorities. The S.G. recommends that this concession may be granted. ~~The P.W.D.~~ ~~may accept the recommendation.~~ The Govt. may accept the recommendation.

2. The proposal will commit Govt. to ~~an~~ certain recurring and non-recurring expenditure as shown below:-

~~Even though~~ The attendance has not yet come up to the sanctioned bedstrength of the hospital. ~~But in view of the fact that the entire cost of the building (Rs. 10,000/-) is to be the donation of an individual there seems to be no objection in proceeding with the scheme.~~

4. ~~The S.S.~~ In his letter No. 980.G. dated 6-4-'35 referred to the necessity for a female block with labour ward for the hospital. He ~~therefore~~ recommended the acceptance of the *offer in the present case* in view of the fact that it may take some time before *the bigger scheme* is carried out owing to the present financial stringency.

~~The remarks of the Finance dept, may be invited U.O.~~

h S. From ~~the~~ appendix to ~~Cons~~ 32620 H., *u. 9.36* of 16.12.35, it is observed that there are two nursing orderlies in the Govt. hospital at Dolegal.
 Though the sanctioned number of beds for the hospital is 16 the average number of occupied beds is only 8.85. According to the ~~existing~~ scale of 1 nursing orderly for 8 beds the hospital can have only one nursing orderly. The existing excess post of nursing ~~orderly~~ should therefore be *utilised* for the proposed labour ward of 10 beds. There is no need to sanction an add. post of nursing orderly ~~in the hospital~~ as suggested by the S.G.

Finance dept. recommend the immediate ^{abolition} ~~abolition~~

of one of the two posts of nursing orderlies now available in the Govt. Hospital at Kollegal as the average attendance of 8.85 in-patients entitles the hospital to one nursing orderly according to the accepted scale.

It may be mentioned in this connection that there are 8 beds for women in the hospital for which a female nursing orderly is necessary even though the all the 8 beds are not occupied. In the circumstances it is for consideration whether the Govt. should insist on the abolition of the one of the posts of nursing orderlies.

~~If however it is considered that there is no case for a second nursing orderly now~~ The remarks of the SG. ^{first} may be called for. The draft Memo. is put up below is for approval.

As regards the construction of the new ward

it is for consideration whether permission may be accorded now for starting it as the cost of ~~the~~ work is to be met wholly from private funds. ~~and~~ ~~the~~ donor has agreed to the condition that the acceptance of the offer places no obligation on the Govt. to maintain the ward & that the ward will be maintained so long as the Govt's financial position admits of such maintenance. The donor may perhaps be informed also of the risk of funds not being voted by the Legislative Council for exps. on the maintenance & equipment of the ward.

The S.G. does not agree to the abolition of the second post of nursing orderly. He ^wconsiders that the second nursing orderly is necessary for the following reasons :-

- (1). The minimum number of nursing orderlies required even for a dispensary with no beds is 2 (one male and one female,) *There is at 1*
- (2). Male nursing orderlies cannot be expected to attend on female patients.
- (3). The number of in and out-patients in the Govt. hospital, Kollegal is increasing.

Items (1) and (2) above. These reasons have not yet been accepted as for purposes of sanctioning

244

(in Govt. med. institutions)

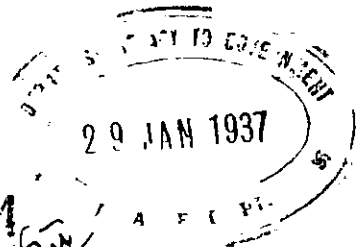

additional nursing orderlies. In the case of the Govt. hospital at Hospet however the Govt. Sanctions have sanctioned the retention of the existing two nursing orderlies as a special case on account of the large outpatient attendance. The Govt. hospital at - The maximum number of patients at Kollegal Hospital has been only 12.5 in the in-patients dept. and 208.50 in the out-patients dept.

Govt. Hl. Hospet
In-patients. 10.89
Out-patients. 327.39

Item (3) on page 7 ante. It is stated that the number of patients ~~have~~ ^{has} doubled since 1933. The figures furnished by the S.G. at page 8 Cf. will show that this statement is ~~not quite~~ correct. ^(No far as the year 1936 is concerned) It must be accepted that there is a steady increase in the number of patients..

In view of the fact that a maternity ward will shortly be constructed and the fact that the patients are steadily increasing, this dept. may recommend the retention of the female nursing orderly as a special case. But this will not be a precedent for such appointments in other places. In the circumstances Finance may be requested to reconsider their decision in para 3 at pages 4 and 5 ante.

(Previous Finance notes on pages 4-5 and 7 ante).

In para 3 of this dept. note on pages 4-5 ante, this dept. pointed out that, as the average number of in-patients is only 8.85, the hospital can have only one nursing orderly and that, therefore, the second nursing orderly should be dispensed with until the new labour ward is constructed and is ready for occupation.

2. The S.G. and Edn. & P.H. however press for the retention of the second nursing orderly - please see the S.G.'s letter on pages 7-8 c.f. and Edn. & P.H. notes on pages 7-8 ante. Edn. and P.H. say that the retention of the second nursing orderly (i.e. the female nursing orderly) may be approved as a special case in the present instance and that this will not be treated as a precedent for appointment of nursing orderlies not admissible according to the recognised scale. For orders whether the assurance given by Edn. & P.H. may be accepted and the female nursing orderly allowed to continue in view of the fact that, on the basis of the strength of in-patients in the eleven months in 1936 the second nursing orderly is admissible.

It is perhaps unnecessary to make ^{a large} ~~any~~ provision ^{on account of the draft} in the budget for 1937-38 as it might take at least 4 or 5 months before the building is completed. Provision on account of the staff and other items need therefore be made only ~~from April 1938~~ ^{for} a month or two in that year.

A draft note for the New Govt. is put up below for approval. It may be sent to Finance U.O. for acceptance and for adding their note.

NOTE BY THE ADMINISTRATIVE DEPARTMENT.

The present bed-strength of the Government Hospital at Kollegal is 16 (eight beds for males and eight for females). The Surgeon-General was considering the question of constructing a female block with a labour ward of four beds, a general ward of six beds, consulting room, examination room and dressing room for the hospital. He could not however proceed with the scheme on account of financial stringency.

In April 1934 Mr. G. Madappa, a silk merchant at Mudigundam in the Kollegal taluk, came forward with a generous offer to construct the necessary buildings for a labour ward of ten beds with a theatre at a cost of Rs. 10,000. The Surgeon-General however considers that a ward of eight beds with a labour and sterilizing room attached will be sufficient. The donor has agreed to construct the buildings according to the specifications of the Public Works Department. He has also agreed to bear additional cost, if any, that may arise in connection with the construction. He has agreed to remit into the treasury the full donation of Rs. 10,000 and to draw from the treasury the cost of the work executed at convenient stages. There will thus be no cost to the Government on account of the buildings. The Government have accepted the offer.

As regards the additional staff only a female toti will be required for the present.

The ultimate cost to Government on account of the proposal will be only Rs. 800 recurring and Rs. 1,100 non-recurring. This department accordingly recommends the inclusion of the necessary provision in the budget for 1937-38.

C. H. MASTERMAN—17-2-37.

NOTE BY THE FINANCE DEPARTMENT.

The proposal may be considered as a Part II scheme for 1937-38.

The Govt. have accepted the offer of Mr. E. Madappa of Kollagal to construct at his cost a maternity ward in the Govt. H. There the scheme is waiting for the ^{approval} of the ~~legislature~~ ^{legislature} in regard to recognizing & non-recognizing ^{other than the cost of the building} ~~expenses~~.

pro of

2. The donor now requests that orders may be issued immediately sanctioning the preparation of plans and estimates and the delivery of the same to him within a month. He reports that the cost of iron has already gone up and that it is likely to rise further high and that he will not be responsible for the cost of any to go by by revising his terms consequent on the increase in prices.

~~Any assurance~~ ^{to him} will amount to a commitment on the part of the Govt. In view however of the fact that the offer

~~of the donor is a liberal one and that the recurring and non-recurring cost to Govt. is only Rs. 800/- and Rs. 1,100/- respectively. It is for order whether the Govt. may proceed with the scheme in advance of the vote of funds by the Legislature~~

11.
[3] 3. One of the conditions subject to which the offer of Mr. Madappa was approved was that the ward was constructed according to the design approved by the D.M.O. & the Ex^{ce} Engr. on sites selected and approved by the S.G. & that on completion the building was handed over to the Govt. It will thus be seen that the Govt. have not undertaken to prepare plans & estimates for the work. The design has to be approved by the D.M.O. & the Executive Engr. The donor may be asked to arrange for the preparation of the design in consultation with the D.M.O. & the Executive Engr. & for the execution of the work after obtaining the approval of the design. There seems to be no need for the Govt. to arrange for

Medical Institutions - Govt. Hospital Kollegal. Construction of a maternity ward by Mr. Madappa - disbursement of the amount deposited by him -

In G.O. No. 991 P.H. S 29.4.1935, the Government accepted the offer of Mr. Madappa for the construction of a maternity ward of 8 beds in the Govt. Hospital, Kollegal. He was also requested to remit the donation of Rs 10,000 into the Treasury to the credit of the Government. The donor agreed to deposit the amount but however requested that he may be permitted to draw from the Treasury the cost of the work executed at convenient stages instead of being made to wait for making payments till the building is completed. In Govt memo No. 20400-1 D₂ P.H. S 8.12.36 the Surgeon General was informed that the cost of the work executed and certified by the P.W.D. may be paid in instalments as desired by the donor.
